San Antonio, Texas 78247

**RE: Letter of Appreciation**

Dear Mr. Noto:

The end of the year is a time for reflection of what was accomplished in the previous twelve months. In our case, things were good. We completed several projects that might not be Quality Fence's largest or most noticeable 'trophy' works, but they were of importance to us. In case you don't remember our name, let me just say that we're somewhat of a boutique or niche developer in The Dominion.

Accordingly, I would personally like to recognize **Albert Castillo**, Project Manager for all of his hard work and assistance with numerous projects that we completed during 2010, such as our water quality basin fence project, several decorative drainage inlet barriers, two sets of entry fences, decorative wrought iron exterior wall caps, barrier gap fencing, and even some chain link work at our wastewater treatment plant. In every case, the communication, schedule, quality of construction, installation, and completeness was top shelf!

I would be remiss if I did not mention Quality's draftsmen, fabricator / artists, construction crews, quality control / inspection crews, and of course the people back at the main office. You have a fine team there, so keep up the great work.

*Wishing you all the best for 2011, and beyond.*

Happy New Year,

**Thomas K. Gidley**  
Director of Development  
Intco Development of Texas, Inc.
