Dear Mr. Noto:

Our sincerest appreciation to Mr. Ken Chandley and his crew for the work they did at the City's Construction Inspections and Material Testing Lab. Ken designed the chain link enclosure for our plastic cylinders, and the work crew did an excellent job in installing the fence. As a result of this fence work, we are better prepared to have all our cylinders available for our inspectors. It has also enhanced the entire appearance of our building yard.

Thanks again to Mr. Chandley and his crew!

Sincerely,
