

July 14, 2011

Good Morning Steve,

I just wanted to again say THANK YOU for the excellent work SA Quality Fence did on our wrought iron fence at our house. Your crew was very professional, courteous and clean and showed up on time EVERY time. I was especially impressed with the final installation of the panels; they did the job from start to finish in ONE day, very impressive.

I also wanted to express our appreciation to you for your professionalism, hard work and diligence during this entire project. I realize that it must have been difficult to inherit this project from someone else and, in my opinion, you handled it flawlessly, all with the customer in mind.

Consider us VERY happy with the work and please feel free to use us as a reference and testimony to your hard work and excellence.

Thanks,

Mike
