Potential Clients

Subject: Reference Letter

To Whom It May Concern:

As General Contractor we have to find reliable subcontractors for just about anything. There seems to be many fence companies but not many companies that can do quality steel fabrication like SA QUALITY FENCE AND WELDING. Many of our projects require some special steel fabrication with detailed coordination with the field and shop. Since most Structural Steel Erectors do not fabricate and they are too big to attempt smaller projects and Structural Steel Fabricators do not erect we find it hard to find a good subcontractor to do all the above under one roof with a great level of quality. SA QUALITY FENCE AND WELDING fills the gap well for **RED HAWK** as they take on all kinds of very important, intricate projects providing labor, materials, equipment, shop drawings, shop and field fabrication and erection all under one subcontract.

I would recommend SA QUALITY FENCE AND WELDING to anybody. They are very responsive to **RED HAWK**'s needs, and will make it right the first time. Every time I have a project that requires steel fabrication they are the first subcontractor that I call upon. They immediately respond to my request and go way out of their way to provide **RED HAWK** the best service that anyone could ever imagine. No hesitation just 100% customer satisfaction and no excuses. SA QUALITY FENCE AND WELDING spoils **RED HAWK** to the point that it makes it easy for us to provide our customers with the same 100% customer satisfaction that they provide for **RED HAWK**.

Yours Truly,

**RED HAWK** Contracting Company, Inc.
